How to Order

MOQ

1,000 pcs per model, including existing models with your logo and neutral packaging. Mix models at 1,000 pcs each.

Samples

Stock samples ship in 3 days. The sample fee is credited on your bulk order.

Lead time

About 35 days for 1,000–5,000 pcs; about 40 days above 5,000 pcs. New tooling, custom packaging and certification work add time, which we schedule in the quote.

Customization

Logo, color and packaging on existing models; structural ODM changes are scoped per project.

Specifications are taken from the LONGRICH POWER specification sheets as published on longrichpower.com in October 2026. Ratings, documentation and certification scope are confirmed for the exact model, configuration and destination market before quotation. A UL 62368-1 test report is not a UL Listing.
